

Designed for clamping plain or insulated pipe to structural channel supports such as trapeze hangers, floor stands and wall brackets. Provided with slotted holes for convenient installation.

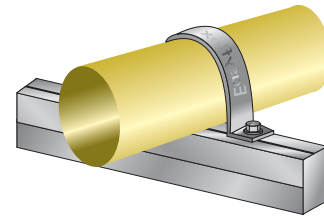

## Features

- Electro galvanised post manufacture, to protect edges from corrosion.
- Full range of sizes available to be match the outer diameters of Easyflex Rubber Support Inserts (RSI) providing a simple and effective support solution for insulated pipe.
- Also available with EPDM lining.

**Material :** Steel

**Finish :** Electro galvanized post manufacture.

**Other Options :** EPDM Lined (Suffix 'RL')  
Epoxy Powder Coated Finish (Suffix 'PC')  
Hot Dip Galvanised Finish (Suffix 'HDG')  
Stainless Steel Construction (Suffix 'SS')

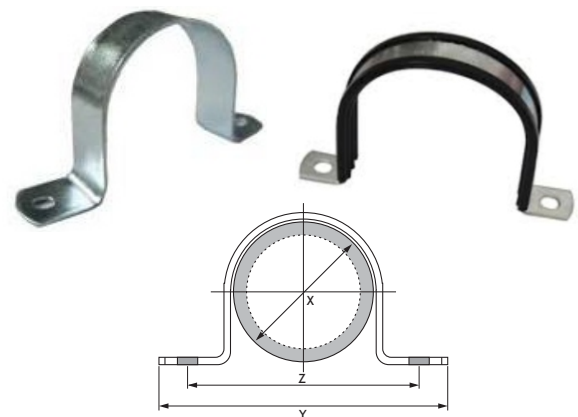

## Ordering

- For insulated pipe, please specify effective or pipe size plus insulation thickness.
- Where Easyflex Rubber Support Inserts (RSI) are used, specifying 'matching U-Strap Clamps' will suffice.
- Selection of clamp models for common pipe sizes/ insulation thicknesses is given overleaf. For other sizes our representatives will glad to assist in selection of the appropriate model.
- Where EPDM lining is required, please select considering that application of lining reduces clamp ID by 8-12mm.
- U-Strap clamps of sizes not covered in table (overleaf) are available on application.

**Compliance - US Standards MSS-SP58 (type 24) MSS-SP69; EG to ASTM B633 SC3, BS 1706 FE/ZN12**
